PREETISH KAD

CYBERSECURITY

+91 8882900336 | Preetishkad@gmail.com | Delhi, India | linkedin.com/in/preetishkad | github.com/preetishkadd

PROFESSIONAL PROFILE

ISC2-certified Cybersecurity Analyst with hands-on experience in vulnerability assessment and security validation at a live cybersecurity firm. Proven builder, community founder, and IIT Delhi workshop alumnus

EXPERIENCE

Cybersecurity Intern | *Digigrove Pvt. Ltd., Delhi* *2024 · 2 Months*

- Conducted vulnerability assessments across client systems — identifying and documenting critical security weaknesses for remediation
- Participated in software security validation and penetration testing workflows, gaining direct exposure to industry methodologies
- Strengthened expertise in threat modelling, network security analysis, and structured security audit processes

Content & Brand Strategy Intern | *Aura Enterprises, Delhi* *2024 · 6 Weeks*

- Designed digital content strategies; developed professional communication and cross-functional collaboration skills

PROJECTS

Real-Time Chatting Application *Java · Python*

- Live multi-user messaging platform supporting text and media exchange via socket-based network programming

Telegram Interest Matching Bot *Telegram Bot API · Python*

- Algorithmic profile-matching bot with user registration, interest pairing, and third-party API integration

College Event Management Platform *HTML · CSS · JavaScript · Firebase*

- Web platform managing student attendance, marks, and events with Firebase real-time cloud synchronisation

Remote-Control Race Car *Arduino · Pulse Width Modulation*

- Arduino-driven RC vehicle using PWM signals for precise motor speed and direction control

EDUCATION

Bachelor of Computer Science | *Chandigarh University* *2025 – 2028*

Diploma in Computer Science | *Amity University* *2021 – 2024*

CERTIFICATIONS

ISC2 Certified in Cybersecurity (CC) — *ISC2 International* *2024*

Google Introduction to Data Science — *Google Career Certificates* *2024*

TECHNICAL SKILLS

Security: Vulnerability Assessment, Security Validation, Penetration Testing, Threat Modelling, Network Security

Languages: Python, Java, JavaScript, HTML, CSS, Data Structures & Algorithms

Tools: GitHub, VS Code, Firebase, Arduino, Telegram Bot API

Soft Skills: Leadership, Critical Thinking, Problem Solving, Fast Learner, English Proficiency

LEADERSHIP & ACTIVITIES

- Founder, Fusion Tech Club — Amity University: organised workshops, hackathons, and peer-learning sessions for the campus tech community
- Cybersecurity Workshop, IIT Delhi: selected for a hands-on security workshop at India's premier technology institute
